

Plan a custom **CRUISE** anywhere in **GREECE** on superb wooden yacht

## **IRINA**

*IRINA is a professional sailing wooden yacht registered under the Greek flag, Piraeus N.8975.*

She is 72 feet length O.A.

Which allows ample living space for a small group of passengers of all ages. She is perfect for 2 families or 2 couples with their guests.

**THE PERFECT SIZE FOR YOUR CRUISE IN GREECE !**

Any larger and you can't enjoy the nice secluded coves and harbors...

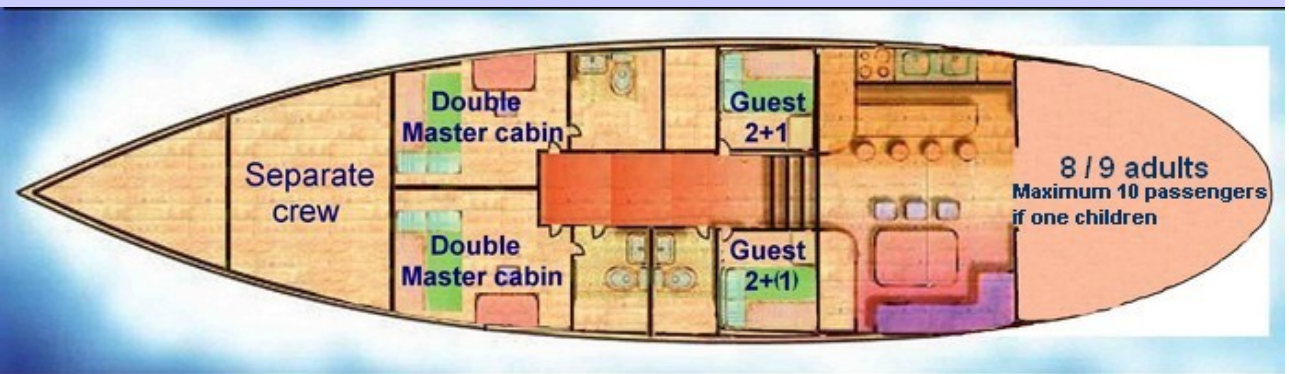

Any smaller and you wouldn't have sun beds and large spaces, important for your comfort.

**One traditional sailing yacht from Aegean Sea, in harmony with Greece and nature...**

The two master cabins with their private bathrooms...

Layout :

**The two guest cabins with their common bathroom :**

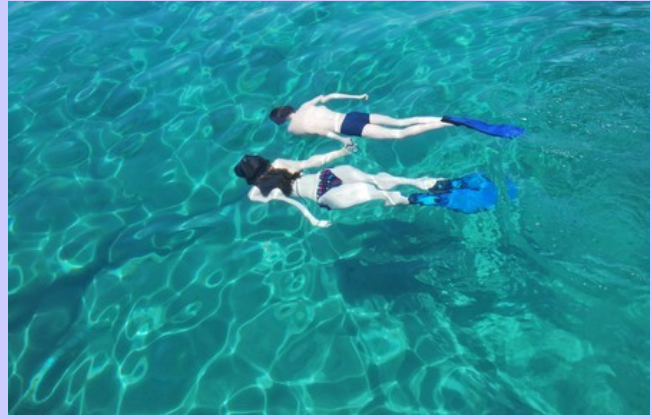

one has the bunk single bed removable

**Cabins on the IRINA :**

- Two cabins cat. "Master" (Queen size double bed + desk + private bathroom)
  - Two cabins "Standard" 2+1 (double bed + one single upper bunk - using the common bathroom)
- Air Conditioning in all cabins - For 4 to 8 adults / 10 passengers with the triple cabins

### SPECIFICATIONS :

IRINA is a 74 tons wooden sloop, registered as professional touristic sailing yacht by the Greek Authorities. "Professional sailing yacht" means she passed (in 2006) the stability tests and required technical specifications.

For this reason she is allowed to sail with 6 Beaufort winds and more. Other professional touristic boats up to 83 feet are not licensed to sail in those winds. The sails are not here just for your pictures ;-). This classical wooden Greek yacht (Kaiki) was strongly built by one of the best shipwrights of the Cyclades. IRINA has a heavy duty 360HP turbo Volvo marine engine and approximately 200 square meters of sail. Equipment includes an autopilot, 2 VHF radios, 2 GPS, the standard Electronic equipment as well as a tender with a Yamaha outboard engine. There is always 220AC to charge any telephone or others electronics like cameras or MP3 players. There is also a generator for any larger AC power needs. Of course there is also an electric refrigerator, 2000 liter water tanks, hot water and air conditioning in all the cabins. There is snorkeling equipment, fishing lines, and the ability to connect your MP3 player to the yacht stereo. The bar is open for basic beverages (refreshment or beers) and you can also bring and drink your own bottles of Alcohol without extra-charge. There is a sunbathing area with sun beds on deck...

Everything you need to enjoy a comfortable cruise with great food (breakfast and one lunch or dinner on board).

Length OA : 72' - Wide : 19' - Draft : 9' - Gross Tonnage : 74
